

MTNL 3G SERVICES OFFERS BEST DOWNLOADABLE SPEEDS IN DELHI SERVICE AREA

TRAI's Independent Drive Test Report of Delhi Service Area which includes Ghaziabad, Noida, Gurugram & Faridabad, has adjudged MTNL to be the fastest 3G network offering average downloadable speeds over 3.7 mbps. The packet latency has been the minimum among its peer in the segment.

The key performance indicators for the aforesaid test report for 3G data services has been the Download and Upload Throughputs, web Browsing Delay, Video Streaming Delay and Latency wherein by and large MTNL has surpassed its peer in the 3G Service segment.

MTNL has already upgraded its core and access network of mobile in certain regions and work is in progress to upgrade the mobile network in other regions as well that will further enhance the user experience & services in Delhi service area.
